- React / Next Js
- PHP

PROFILE

I'm Ahmed Raza, a 16-year-old web developer and designer in 10th grade. I create dynamic websites and applications with React, use TailwindCSS for modern styling, and add engaging animations with GSAP and Framer Motion. Passionate about turning creative ideas into functional solutions, I'm eager to expand my skills and make a positive impact in the tech field.

WORK EXPERIENCE

Web Designer/Developer

2023 - 2024

- Designed and Coded a responsive website and web applications using React. Tailwind CSS, Gsap and various other framework
- Worked closely with clients to understand their requirements and translate them into functional and visually appealing web designs.

Personal Projects

2016 - Present

- Designed and built multiple personal websites from scratch, incorporating custom layouts, interactive features, and responsive designs.
- Utilized technologies such as HTML, CSS, JavaScript, and various content management systems to develop user-friendly and visually appealing sites.
